

Outlining the Amendment Process for Affiliation Agreements

Outlining the Amendment Process for Affiliation Agreements

Initial Call and Response	Which schools and school representatives would I be working with?	
	Which programs would need to be added for each school?	
	Would I be the main contact for this project?	
Drafting the Agreement	Are the agreements on up-to-date affiliation agreement templates or will amendments require replacing the agreements with the 2023 version?	
	When would we like to have these agreements approved by?	
	When are the students from the additional programs expected to start rotating?	
	Are there any considerations we can make that would allow for more flexible amendments in the future?	

Receiving Redline and Submitting to CLM	Who would be the internal reviewers for these amendment workflows in CLM?	
	Who would be the internal and external signatories for these agreements?	
	Are there any considerations that need to be made in the CLM workflow that is specific to Workforce Development?	
Onboarding of Students	Will any of the programs require Epic Training?	
	Are there any additional questions we should ask Jordan and Jenna?
